

Fiery® FreeForm™ Create

Variable Data Solutions

Free, easy VDP

Fiery FreeForm Create makes creating personalised files fast, free, and easy.

Fiery® FreeForm™ Create is a free variable data creation application for print production on Fiery Driven™ printers. Quickly and simply create personalised files in an intuitive interface. Add variable elements such as text, images, and barcodes with just a few clicks.

"Fiery FreeForm Create has replaced products that you would easily spend over \$1,000 for, plus it automates processes that would be a nuisance to do in common graphics packages. Having FreeForm Create allows you to tap into the variable data power of your existing Fiery DFE." – Brad Nichols, owner, Blip Printers

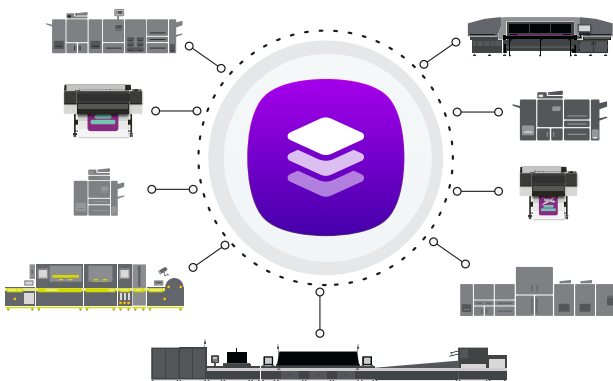

Create personalised files in just a few clicks

Benefit	Details
Easy to use	• An easy, free way to get started with VDP – all you need is a PDF and a spreadsheet • Drag-and-drop variables in a simple, visual interface • Preview records or output a single record as a PDF for approval • Outputs in a Fiery-optimised format (.ffp) for faster processing • Preflight data to spot missing, broken, or empty fields
Better target potential customers with variable elements	• Add personalised text, images, or barcodes to files • Native support for over 150 barcode types • Add simple variables, like numbering sequences, right in the app
Customisable	• Use spot or premium colours for brand and visual impact • Create branded QR codes with custom colours and logos • Save QR code and text styles for faster setup • Speed layout with rulers and custom gridlines, PDF page boxes, or personalise multi-up PDFs
Increase efficiency with automation	• Submit files to the Fiery server using presets, Hot Folders or in batches to reduce steps • Automate setup and imposition using Fiery Impose and Fiery JobFlow Pro

Get a unified VDP workflow
