

Fiery Impose, Fiery Compose and Fiery JobMaster

Feature comparison table

Fiery® makeready solutions in Fiery Workflow Suite

Fiery Workflow Suite includes the following Fiery makeready components: Fiery Impose, Fiery Compose and Fiery JobMaster. These plug-in applications in Fiery Command WorkStation® offer printers a flexible solution that can be available to either the local press operators or the remote prepress specialists without the need of investing in a dedicated desktop client. The unified working space for all document layout tasks simplifies labor-intensive document preparation activities and shortens job setup times of even the most complex jobs.

At-a-glance comparison
