

FIERY[®] JOBMMASTER-IMPOSE

Makeready and imposition solutions

Speed production and reduce waste with Fiery makeready solutions

Fiery® JobMaster™ -Impose is a PDF-based software solution for professional print job makeready and layout imposition. Use it to streamline and automate labour-intensive prepress tasks to save time and money preparing jobs for print.

Intuitive

- Get robust document imposition and composition tools in one visual interface
- Preview jobs exactly as they will print, eliminating waste and rework

Flexible

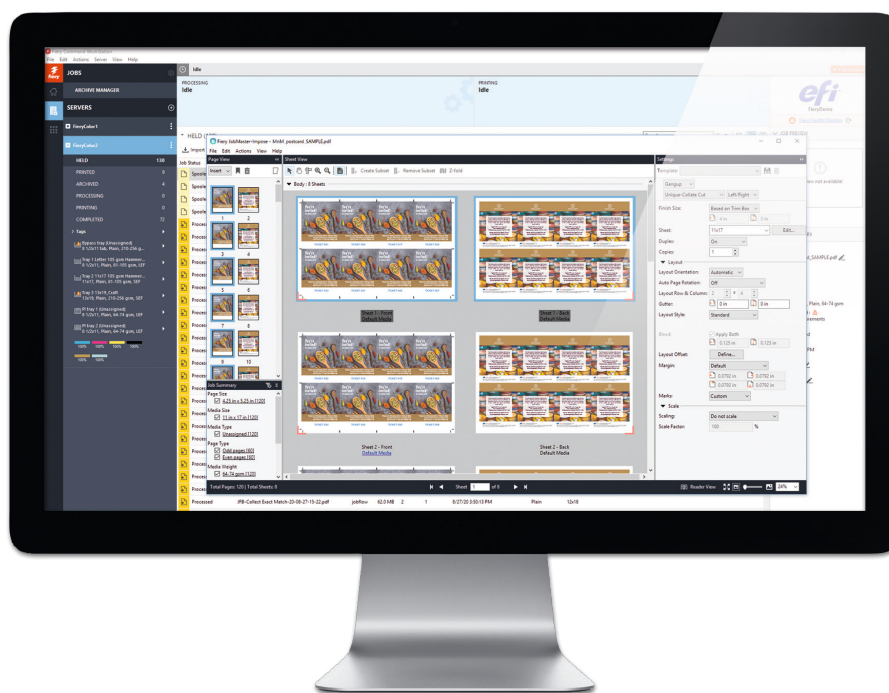

- Scales from a single-operator to a multiple-operator environment
- Keeps you up to date with innovate feature updates*
- Uses one makeready solution for all your Fiery Driven™ printer brands
- Allows non-destructive edits throughout job setup to fulfill change requests without having to start over

Integrated

- Offers tight integration with Fiery Command WorkStation® and the rest of the Fiery Workflow Suite to increase production efficiency
- Seamlessly integrates with Adobe® Acrobat® Pro** to handle late-stage edits

Convenient

- Provides a standalone solution that doesn't require additional hardware investment
- Runs on a PC or Mac® client, or locally on the Fiery server

* Requires a current Software Maintenance and Support Agreement

** Available as a separate purchase

Automate imposition tasks

Fiery Impose is an intuitive imposition solution that streamlines and automates the page layout process.

- Automate imposition workflow with customised templates
- Optimise the printable area for chosen media
- Honour trim and bleed values in PDF files for accurate trim mark placement
- Use versatile gangup styles for efficient finishing of printed products
- Produce saddle-stitched, nested saddle, or perfect-bound booklets — optimised for inline finishing devices
- Produce personalised jobs with VDP imposition
- Automate slitter/cutter/creaser offline finishing with out-of-the-box templates including cut and registration marks for Ausjetech, Duplo, Graphic Whizard, Horizon, MBM, Morgana, Plockmatic Group, Standard, and Uchida slitter/cutter/creaser finishers
- Create custom imposition layouts with cut, perforation, and fold finishing settings for high-value jobs that can be readily processed by Duplo nearline slitter/cutter/creaser finishers for fast production turnaround

Save time on complex document preparation

Fiery JobMaster helps operators to be more productive when preparing a wide variety of higher-margin jobs.

- Simplify job merge with drag-and-drop functionality and visual feedback
- Mask unwanted content
- Apply page numbering, unique ticketing, or add text and image stamping to selected pages
- Scan, import, and clean up hard-copy pages
- Save on click charges by specifying any page to print in black and white
- Use page ranges to apply media and inline finishing attributes on a chapter basis
- Produce bleed-edge tabs or insert multi-bank tabs
- Design tabs with images, colour backgrounds, and text
- Use PDF bookmarks to automate tabs
- Quickly create multi-part forms
