Fiery® Color Controller E-26C

Fiery FS500

Professional printing made easy.

Fiery Color Controller E-26C helps you get the most out of your RICOH mid-range IM C6010 MFP Series by delivering high quality output with exceptional productivity.

More prints in less time.

Fiery SmartRIP processes large and graphic-rich files, like Adobe PDF or Microsoft PowerPoint, in the most efficient way to deliver finished prints, faster. For large corporate workgroups with high print volumes, documents are printed quickly so more work gets done.

Get your corporate colours right

Fiery Spot-On™ and Fiery TrueBrand ensure accurate brand colour reproduction, like PANTONE® colours or custom spot colours - even from Microsoft Office files. Fiery Edge™ profiles deliver stunning colour with the smoothest colour blends, maximum shadow details, and superb image definition.

Create professional materials in-house

Use Fiery VUE, the "visual print driver," to create and print professional finished documents quickly, easily and cost effectively. Fiery FreeForm™ Create, a free application, enables you to quickly and simply personalise existing files – with no additional software required.

A scalable solution

The Fiery server can grow along with your business requirements. A complete range of optional tools enable imposition, composition, automated file submission, intelligent automation technology, advanced colour/image correction and spot colour management, colour profiling, integration with business systems, and Adobe PDF Print Engine support.

Fiery Color Controller E-26C v1.1 specifications

Fiery Driven™ engines

- RICOH IM C3010/C3510/C4510/C5510/C6010/C7010
- Supports all engine finishing devices

Hardware and platform

- Fiery® FS500 software
- Intel® Pentium™ G5400 Processor
- 500 GB HDD
- 4 GB RAM
- Four USB 3.0 ports
- Linux operating system
- Fiery Installer Builder

Colour and imaging

- Fiery Edge™ colour profiles
- Fiery Spot-On™
- Fiery TrueBrand
- PANTONE® Color Enabled
- Fiery Calibrator
- Composite overprint
- Image smoothing
- Image enhance

Productivity and workflow

- Fiery Command WorkStation®
- Fiery drivers for Windows and Mac®
- Fiery VUE
- Fiery WebTools™
- Fiery server presets
- Fiery Go (Android™ and iOS)
- Fiery Paper Catalog
- Booklet Maker

Device management and analytics

- IQ™: Dashboard, Insight, Notify, Go
- IQ ColorGuard™ (optional)
- IQ Manage (optional)

Performance

- SmartRIP
- Spool-RIP-Print
- Strict ordered printing
- Print Time Estimation

Adobe interpreter support

- CPSI version 3020
- Adobe® PDF Print Engine® 5.5 (optional)

Variable data printing

- Fiery FreeForm™ Create
- Supported file formats
  - Fiery FreeForm Plus
  - PDF/VT-1 (optional with Fiery JobExpert and PDF Processing Kit)
- VDP Record and Set Level Finishing, VDP Record Range Printing, Define Record Length, VDP Resource Manager, VDP Raster Preview

File format support

- Adobe® PostScript® Levels 1, 2, 3; Adobe PDF; PDF/X-1a, 3, and 4; Optimized PDF and PS; Enhanced PCL6/PCL5
