

Canon imagePRESS Server E9000

Fiery FS500 PRO

Get outstanding automated productivity for your demanding environment

Combine a Canon imagePRESS V1350 with an imagePRESS Server E9000 to gain high-speed productivity, superb image quality, and automated workflows to meet your most exacting requirements.

Boost your output to maximize your ROI

Getting jobs faster means higher profit and a faster return on investment. The imagePRESS Server E9000 comes with powerful FS500 Pro software and Fiery® HyperRIP, a speed-enhancing technology that processes up to 8 individual jobs simultaneously to maximize your production.

Keep your printer ready to perform its best

Customers demand the best quality every time. To assure that your Canon imagePRESS V1350 is always printing its best, the imagePRESS Server E9000 comes with 1-step color management and Zero-touch recalibration, a set of automation tools that maintain high-quality, consistent output with minimal manual intervention.

Automate workflows for flawless output

The imagePRESS Server E9000 comes with innovative resources included to assure a smooth prepress process.

- Get the job right the first time with the Fiery Graphic Arts Pro Package, a set of expert tools that helps identify and correct print production problems before they result in rejected jobs and wasted clicks.
- Reduce work setup time by analyzing print jobs and dynamically selecting the best print settings with bundled Fiery JobExpert.
- Eliminate repetitive manual setup and reduce the potential for human errors with Fiery Jobflow™ Base, so you can deliver ready-to-print files with minimal touchpoints.
