

Fiery® IC-419

Fiery FS600

Elevate your productivity and exceed expectations

Fiery® IC-419 for Konica Minolta AccurioPress C4080/C4070/C4065 delivers superior colour and outstanding performance to help your business thrive.

Superior colour quality

- Produce stunning colours with the smoothest blends, maximum shadow details, and superb image definition with Fiery Edge™.
- Fiery colour management automation is a combination of two features working in harmony to effortlessly achieve incredible colour, even for beginners, all within Fiery Command WorkStation®. Media can be calibrated and profiled in just a single step, and then zero-touch recalibration keeps colour consistent with the IQ-501.
- Accurately reproduce brand colours, match PANTONE®, and custom spot colours with Fiery Spot-On™. Add the optional Fiery ColorRight Package for advanced spot colour management, plus last-minute colour and image correction needs.

Outsmart competition with smart solutions

- Get jobs out quicker by reducing setup time and cutting waste with Fiery JobExpert™. This breakthrough technology analyses incoming PDF and PostScript files and dynamically chooses the optimal Fiery print settings.
- Ensure consistent, predictable output in an end-to-end Adobe® workflow with Adobe PDF Print Engine rendering technology.
- Offer personalised printing with the Fiery FreeForm™ Create. Quickly personalise existing files by adding variable elements such as text, images, or barcodes with just a few clicks.
- Use server presets to make job submission fast and error-free. Or add the optional Fiery Automation Package to reduce job touchpoints and make your workflow more efficient.
