

Fiery SC21

Fiery FS600 Pro

Unleashing maximum potential for full printing performance

Boost your profits: The Fiery SC21 server powers FUJIFILM Business Innovation Revoria Press SC285S / SC285 printer for smart automation and perfect colour precision

The power of breakthrough technology

Meet the Fiery SC21 server: your Revoria Press SC285S / SC285 Printer's new powerhouse ally. Equipped with the cutting-edge Fiery FS600 Pro software, this server is engineered to take your efficiency and print quality to its maximum.

Elevate your visuals by incorporating the pink gamut extension, which enhances colors and images with brightness, smoothness, and vibrance. Additionally, include specialty colors to achieve premium print effects, resulting in a spectrum of colour expressions.

Streamline your print job management with Fiery Command WorkStation, which offers production teams robust tools to manage jobs across Fiery Driven printers efficiently.

Enhance efficiency through innovative, easy-to-use technology

- Reduce job setup time with Fiery JobExpert™, which automatically analyzes print jobs and applies the optimal printing settings.
- Simplify the prepress process and effortlessly create print-ready documents with Fiery JobFlow™ Base, a user-friendly automation tool that cuts down on time and reduces the need for corrections.
- Ensure the precision of brand colors in Microsoft Office applications. Fiery TrueBrand™ makes it easy to convert RGB values to specific spot colours, including PANTONE colours.
