

BP-PE12 V2.0 Fiery® Print Server

Endless Color Possibilities. Unparalleled Productivity.

The BP-PE12 Fiery server for the Sharp BP-1200C and BP-1200S Color Press Series includes smart automation and integrated tools delivering unique prints that stands out from the rest.

Unrivaled efficiency

Introducing the BP-PE12 V2.0 Fiery server, that incorporates advanced applications and processing capabilities to truly elevate your production print output. The Fiery server incorporates Intelligent HyperRIP™, an innovative Fiery technology designed to expedite the processing of large and complex jobs, enabling your business to expand your printer's capacity with confidence. Increase efficiency with the benefits from the included, browser-based Fiery JobFlow™ Base prepress automation software.

Dazzle with specialty colors

Enhance your print projects with premium effects by utilizing up to two specialty colors simultaneously, enabling the creation of dazzling metallics and an expanded spectrum of rich, vibrant color expressions. Now featuring the innovative pink gamut extension, the server unlocks a new realm of vivid, striking hues to elevate your prints. Simplify the handling of specialty colors with built-in tools such as Fiery ImageViewer and Fiery Spot Pro. Additionally, the Fiery Smart Estimator calculates your specialty color usage before printing a single page.

Integrated print intelligence

Minimize setup time and reduce waste with Fiery JobExpert that automatically analyzes incoming PDF files and dynamically chooses optimal Fiery print settings.

A unified, integrated print room

Manage all your Fiery Driven™ printers from Fiery Command WorkStation to centralize job management. Integrate your print production workflow with management information systems, Web-to-Print systems, and popular prepress workflows for end-to-end automation.

Use the Fiery Workflow Suite of integrated products, like the included Fiery Impose-Compose, or Fiery JobMaster, to accelerate makeready from job setup through finishing in one single, visual interface.

Stand out through personalization

Utilize Fiery FreeForm™ Create, an included application, to easily and quickly generate personalized print jobs. Incorporate variable components such as text, images, or barcodes with just a few clicks. You can also produce personalized files that incorporate specialty colors for extra visual impact.
