

Canon imagePRESS Server E9500

Fiery FS600 Pro

Get outstanding automated productivity for your demanding environment

Harness the power of a Canon imagePRESS V1350 and an imagePRESS Server E9500 for high-speed productivity, exceptional image quality, and smart automation—built for your toughest challenges.

Boost your output to maximize your ROI

The imagePRESS Server E9500 features Fiery FS600 Pro software and Intelligent HyperRIP, which accelerates performance by automatically selecting the fastest processing mode for each job.

Keep your printer ready to perform its best

Customers demand the best quality every time. To assure that your Canon imagePRESS V1350 is always printing at its best, the imagePRESS Server E9500 comes with 1-step color management and Zero-touch recalibration, a set of automation tools that maintain high-quality, consistent output with minimal manual intervention.

Automate workflows for flawless output

The imagePRESS Server E9500 comes with innovative tools to ensure a smooth prepress process.

- Get the job right the first time with Fiery Graphic Arts Pro Package. Identify and correct print problems before they result in rejected jobs and waste.
- Reduce setup time by analyzing print jobs and dynamically selecting the best print settings with Fiery JobExpert.
- Eliminate repetitive manual setup and reduce the potential for human errors with Fiery JobFlow™ Base, so you can deliver ready-to-print files with minimal touchpoints.
