

Fiery Powers Every Corner of the Print Room at PRINTING United 2026

Fiery's award-winning innovations deliver the capabilities that help businesses thrive in commercial, industrial, large format, specialty, and textile printing

LAS VEGAS, NV. September 15, 2026 – Fiery, LLC, the print industry's leading innovator of digital front ends (DFEs) and workflow software, today announced it is showcasing an end-to-end portfolio of solutions that power all corners of the digital print room at PRINTING United 2026 in Las Vegas, Nevada.

Innovations that drive the industry's broadest range of print applications

Fiery's award-winning products power printing's broadest range of applications, including commercial print, large format, industrial inkjet, direct-to-film, direct-to-garment, and more. With the recent acquisition of Inèdit Software, Fiery's portfolio now includes industry-leading solutions for textile printing – making Fiery a true one-stop-shop to unlock the best results from every corner of the digital print room.

Centralized workflow, from system software to AI-assisted automation

- **Boost capabilities with Fiery FS800 Pro.** Fiery's most advanced system software platform ever, Fiery FS800 Pro introduces AI-powered object-level editing on RIPed files, advanced spot color management, enhanced estimation tools for maximum print intelligence, and alignment with the latest IT requirements.
- **Empowering productivity with Fiery Command WorkStation 7.3.** From a customizable interface to object-level color editing to AI-driven job intake, the latest version of Fiery's centralized job management interface introduces a host of new capabilities that help users complete print jobs faster and more autonomously, with fewer barriers to productivity.

- **Embrace AI-enhanced workflows with Fiery JobFlow Pro.** The Pinnacle Award-winning AI-assisted workflow automation solution intelligently analyzes job content and automatically applies the right workflows, settings, and templates to help operators of all skill levels automate complex production processes and reach new heights of streamlined productivity.

Color technologies that deliver professional results

- **Bring color control to large format print with Fiery ColorGuard.** The Pinnacle Award-winning Fiery ColorGuard's latest release supports Fiery XF-driven printers. This extends the same powerful color control functionality to large format printing, making ColorGuard the central color control solution for the entire print room.
- **Make DTF colors pop with Digital Factory.** With advanced color management powered by Fiery color technology, visual tools for streamlined production, and a modular, easy-to-use layout, Digital Factory 12 gets the best and brightest colors for specialty production – from custom garments to UV applications.

Solutions for every application, from variable data to textiles

- **Expand variable data horizons with Fiery FreeForm Create 2.5.** The latest version of Fiery's Pinnacle Award-winning free VDP software offers a refreshed user experience, streamlined workflows, and greater design flexibility to make variable data applications easy and efficient.
- **Master textile printing with neoStampa.** Industry-leading textile RIP neoStampa delivers advanced image processing, precise color management, and professional print profiling capabilities for consistent, high-quality color results. Together with neoTextil, neoCatalog, and neoMatch, it delivers a complete textile production ecosystem for design, sales, color matching, and workflow automation.

"Print providers are feeling increasing pressure to diversify their offerings, from customized apparel capabilities to signage to specialty applications like UV. At Fiery, we work tirelessly to support our customers' print needs however they evolve and make business diversification as easy as possible – not just in commercial print, but also large format, industrial inkjet, DTF/DTG, and now textiles thanks to our acquisition of Inèdit Software," said John Henze, vice president, sales and marketing, Fiery. "From AI-assisted workflow solutions to effortless color control, Fiery is truly a one-stop-shop to power every corner of the digital print room."

Check out the Fiery innovations listed above as well as others like Fiery XF 9, Fiery Impress, and Fiery Scribe at booth C1449.
