

Fiery® Edge™ is EFI's latest color profiling technology. Fiery Edge technology profiles deliver superior out-of-the-box print results in many key color and quality areas. Fiery Edge profiling technology also provides more user controls to enable print producers to utilize the maximum gamut and output capabilities of a device.

EFI™ Fiery Edge technology is part of Fiery Color Profiler Suite 5.2 and above.

Fiery® Edge™ Test Page Description

Fiery® Edge™ is EFI's latest color profiling technology. Fiery Edge technology profiles deliver superior out-of-the-box print results in many key color and quality areas. Fiery Edge profiling technology also provides more user controls to enable print producers to utilize the maximum gamut and output capabilities of a device.

EFI™ Fiery Edge technology is part of Fiery Color Profiler Suite 5.2 and above.

The image shows a 'Fiery® Edge™ Test Page' with several panels and callouts:

- Top Left:** A woman wearing a blue turban. Callout: "Accurate rendering of RGB 'blues' produces more faithful results to the image original, and delivers more image detail." A white circle highlights a detail on the turban.
- Top Center:** A rainbow color bar. Callout: "Smoother color transitions from one hue to another for blends and gradations." A blue arrow points from the callout to the rainbow.
- Top Right:** A landscape with a road and green hills. Callout: "Smooth graduations with no visible steps or hue shifts." A white circle highlights a detail in the sky.
- Bottom Left:** A close-up of red roses. Callout: "Superior rendering of RGB images produces more detailed 'reds'." A white circle highlights a detail on a rose petal.
- Bottom Center:** A close-up of green leaves with water droplets. Callout: "Automatic 'better blacks' provide greater image clarity and finer details." A blue arrow points from the callout to the leaves.
- Bottom Right:** A woman in a purple dress. Callout: "Enhanced shadow detail in neutral and chromatic areas increases image definition." A blue arrow points from the callout to the dress.

At the top of the test page, there is a header with the 'efi' logo and a small paragraph of text: "Printed on a Fiery® digital print server using a digital color printer. The EFI logo, Electronics For Imaging, Fiery, and Fiery Edge are registered trademarks, and EFI is a trademark, of Electronics For Imaging, Inc. in the U.S. and/or certain other countries. All other terms and product names are the registered trademarks of their respective owners, and are hereby acknowledged. © 2019 Electronics For Imaging".

At the bottom of the test page, there is a footer with the text: "Fiery® Edge™ is EFI's latest color profiling technology. Fiery Edge technology profiles delivers superior out-of-the-box print results in many key color and quality areas. Fiery Edge profiling technology also provides more user controls to enable print producers to utilize the maximum gamut and output capabilities of a device. EFI™ Fiery Edge technology is part of Fiery Color Profiler Suite 5.2 and above."
