

**Fiery Intensify** is a rendering intent innovation that is part of **Fiery® Edge™** color profiling technology. Fiery Intensify boosts color and saturation, whilst maintaining neutral grays and perfect skin tones.

Fiery Edge and Fiery Intensify are part of Fiery Color Profiler Suite 5.2 and above.

# Fiery® Intensify™ Test Page Description

Fiery Intensify is a rendering intent innovation that is part of Fiery® Edge™ color profiling technology. Fiery Intensify boosts color and saturation, whilst maintaining neutral grays and perfect skin tones.

Fiery Edge and Fiery Intensify are part of Fiery Color Profiler Suite 5.2 and above.

Authentic results with more chroma, only where it's needed.

More color with more clarity for HD-looking output.

Colors are more saturated and vivid whilst grays remain neutral.

More color with more definition and maximum shadow detail.

Colors are bolder and more vivid for eye-catching results.

Boosted color with "true blues" that do not shift towards purple, plus perfect skin tones.

Visually appealing results with bluer seas and sky and stronger primaries.

The test page features a grid of images: green leaves with water droplets, brass instruments on sheet music, a woman in a blue dress and shoes, a woman in a yellow jacket on stairs, a sewing kit with buttons and a measuring tape, a yellow car with luggage, and a close-up of a sunflower. The page includes the 'efi' logo, a small disclaimer, and the title 'Fiery® Intensify™ Test Page'.
