Fiery® IC-318
FS400 Pro

Outstanding speed.
Superior output quality.

Deliver faster processing speed, exceptional image quality, and higher productivity with Fiery® IC-318, driving the Konica Minolta AccurioPress C14000 and C12000.

Boost your productivity and profits

- Achieve uninterrupted production with Fiery HyperRIP, a speed-enhancing technology to process complex files in less time.

- Use EFI™ ColorGuard™ — a cloud based color verification solution — to measure color quality performance, track your color quality; and deliver consistent, accurate color.

Impress with outstanding image quality

- Produce amazing color from Fiery Edge™ — the next-generation EFI color profiling technology for Fiery Driven™ printers. Out of the box, Fiery Edge delivers stunning color with the smoothest color blends, maximum shadow details, and superb image definition.

Process more high-value jobs faster

- Connect all your Fiery servers to Fiery Command WorkStation® to centralize job management, handle heavy workloads with ease, and get jobs out the door faster and more efficiently.

- Maximize printer throughput with built-in Fiery JobExpert that will analyze print jobs and dynamically choose the optimal print settings.

- Increase efficiency with automation benefits from the free, browser-based Fiery JobFlow™ Base.
