

A scalable solution for your printing needs

Ricoh Color Controller E-27B delivers superior out-of-the-box colour and intuitive job management tools to produce professional documents in less time.

Print jobs with fewer clicks

Process complex and graphic-rich files faster with EFI's proprietary Fiery SmartRIP technology to improve throughput and production efficiency.

Enjoy a consistent user experience whether printing from the Fiery Driver or from Fiery Command WorkStation™. Use server presets to make job submission fast and error-free. Or, add the optional Fiery Automation Package to gain a touchless job submission workflow, professional preflight tools, and JDF connectivity. The E-27B also integrates with common cost accounting software.

Get your colour right every time

Accurately reproduce corporate brand colours and match PANTONE® and custom spot colours with Fiery Spot-On™. Add the optional Fiery ColorRight Package for advanced spot colour management and colour and image correction needs.

Produce amazing colour from Fiery Edge™ — the next-generation EFI colour profiling technology for Fiery Driven™ printers. Out of the box, Fiery Edge delivers stunning colour with the smoothest colour blends, maximum shadow details, and superb image definition.

Turn up the impact with personalisation

With Fiery FreeForm™ Create, you can quickly and simply personalise existing files for free. Add variable elements such as text, images, or barcodes with just a few clicks.

A secure print environment

The E-27B includes the latest network security standards and authentication mechanisms. User data encryption offers an extra level of protection, and a new, intuitive interface unifies all security settings into one place.

Color Controller E-27B drives RICOH Pro C5300S/C5310S.
