

EFI IQ helps you make smart decisions with data analytics
Unlock the value of your production data by connecting your printers to EFI IQ. Elevate your day-to-day production and business management with data-driven decisions that will help you build a stronger, more profitable business.

Ink savings

- Optimize ink usage per job with the right color mode and resolution.
- Monitor purge events between shifts and printers to identify waste.

Job Title	X resolution	Color mode	Ink cost
Job 1111	600	KCMYcmkW	91
Job 1111	900	CcMmYKWwp	122
Job 1111	900	KCMYcmkW	119
Job 2222	900	KCMYcmkW	45
Job 2222	900	CcMmYKWwp	41

Printing	57.88%
Idle	25.74%
Error	4.77%
Disconnected	11.61%

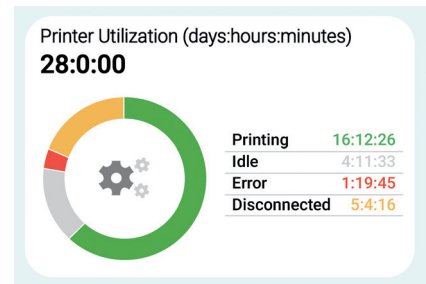

Substrate savings

- Compare print size vs substrate used to reduce trimmed waste.
- Ensure print settings are correct for repeat jobs, avoiding reprints and wasted media.

Job Name	X resolution	Media used	Coverage area
Job 1111	600	35.45 ft ²	35.45 ft ²
Job 2222	900	42.25 ft ²	25.69 ft ²
Job 3333	1000	42.25 ft ²	40.26 ft ²
Job 4444	900	74.25 ft ²	68.21 ft ²

Increase printer productivity

- Solve production blocking events faster via email and mobile device alerts.
- Compare productivity between shifts to identify inefficiencies and determine when to add/reduce shifts.
- Ensure that jobs are produced at the optimal print speed and quality mode.
- Monitor changeover time to identify potential production gains through job batching.

Price jobs more accurately

- Accurately price repeat or similar orders with historical ink and substrate usage data.

Job Title	Device	Media Size	Media Usage
Job 1111	Vutek H5	90" x 60"	72 ft ²
