

Xerox® EX 4100 Print Server Powered by Fiery® v1.1

SPECIFICATIONS

Achieve efficiency through automation with the Xerox® EX 4100 Print Server for the Xerox® Versant® 4100 Press.

MORE FINISHED JOBS IN LESS TIME

Reduce setup time and cut waste with Fiery JobExpert™ — a built-in feature in Fiery Command WorkStation® — that automatically analyzes incoming PDF files and dynamically chooses optimal Fiery print settings.

The included Fiery Impose-Compose offers intuitive, visual document preparation. Easily customize imposition templates to automate common layouts. You can even integrate with offline finishers to automate processes from prepress to finishing, reducing job setup time by up to 70%.

ACCURATE, CONSISTENT COLOR

Produce amazing color from Fiery Edge™ — the next-generation EFI color profiling technology for Fiery Driven™ printers. Out of the box, Fiery Edge delivers stunning color with the smoothest color blends, maximum shadow details, and superb image definition.

Fiery Ultra Smooth Gradients combines 10-bit architecture and special processing to deliver stunning, smooth gradients that will delight your customers by printing with the true appearance designers intended.

EXPAND SERVICES INCOME WITH PERSONALIZATION

The EX 4100 Print Server supports all variable data printing (VDP) formats. Or use Fiery FreeForm™ Create, an included application that allows you to quickly and simply create personalized jobs for print production. Add variable elements such as text, images, or barcodes with just a few clicks.

INTELLIGENT MEDIA MANAGEMENT

Xerox PredictPrint Media Manager Software features cloud-based artificial intelligence that automatically optimizes the press based on what you put in the drawer — with no need to manually adjust critical quality settings.
