

**Fiery® IC-420 v2**  
**FS500**

# Bring professional printing in-house

Deliver professional, finished documents with excellent colour quality for office workgroup environments with the top-of-the-line Fiery® IC-420 v2 digital print server.

## Get your corporate colours right

- Accurately match and manage corporate, PANTONE®, and custom spot colours with Fiery Spot-On™. Fiery TrueBrand™ makes it easy for anyone to print accurate brand colours from Microsoft Office applications.
- Produce stunning colours with the smoothest blends, maximum shadow details, and superb image definition with Fiery Edge™\* colour profiling technology.

## Create professional printed materials quickly and easily

- Offer personalised printing with Fiery FreeForm™ Create. Quickly personalise existing files by adding variable elements such as text, images, or barcodes.
- Produce professional materials in just three simple clicks with Fiery VUE, a free 3D “visual print application” that guides you through an interactive and intuitive workflow.

## Optimise production from submission to output

- The Fiery Essential Driver\* increases productivity with a simple, intuitive way to print common office documents in just a few clicks.
- Add the optional Fiery JobExpert™ and PDF Processing Kit to get jobs out quicker with new intelligent automation technology that analyses incoming PDF files and dynamically chooses the optimal settings. Plus, ensure predictable output with Adobe PDF Print Engine rendering technology.
