

RICOH TotalFlow Bundles

for Fiery Driven RICOH printers

Get the right tools for the job.

Increase productivity, shorten turnaround times and deliver superior output quality with the RICOH TotalFlow bundles available for Fiery Driven™ RICOH printers.

TotalFlow Basic Bundle

Start with the essential tools to accurately and efficiently measure for consistent colour reproduction. Perform complex imposition tasks easily and streamline labor-intensive prepress tasks with the intuitive Fiery Impose.

Includes:

**Fiery Impose
subscription**

**ES-3000
spectrophotometer**

TotalFlow Advanced Bundle

Get advanced colour management tools to meet industry standards, enhance the proofing and control processes, and reduce wasted test prints. Achieve superior colour that is accurate, consistent and reliable every time. Perform advanced document preparation, imposition and labor-intensive prepress tasks simply and easily.

Includes:

**Fiery Graphic
Arts Pro Package
subscription**

**Fiery Impose
subscription**

**Fiery Compose
subscription**

**Fiery Color
Profiler Suite**

**ES-3000
spectrophotometer**

Fiery software

Fiery Graphic Arts Pro Package subscription*

Be confident that your output will print right every time. Best-in-class, integrated tools allow you to quickly make file adjustments directly on the Fiery digital front end (DFE) without needing to go back to prepress:

- Preview full-resolution raster files in Fiery ImageViewer, including variable data content
- Quickly make colour curve edits and perform late-stage colour replacements
- Provide accurate soft proof PDFs to clients to streamline remote review
- Create custom colour bars with sluglines for colour quality control and at-a-glance job information for archiving
- Verify file compliance against industry standards and identify potential errors in files, which can then be viewed in the interactive Preflight Pro Report
- Advanced spot colour management tools that ensure consistent brand colours from design to output
- [Learn more](#)

Fiery Impose subscription*

Visual custom imposition, easy automation of repetitive layout styles, and late-stage editing without modifying native files:

- Increases productivity by creating unlimited user-definable imposition templates
- Cuts down job preparation time to seconds by integrating with job submission automation methods including Fiery Hot Folders, Fiery JobFlow, Presets, and Virtual Printers
- Built-in integration to offline finishers that can reduce file setup time and manual touches by up to 70%
- Simplifies variable data printing (VDP) by imposing multiple records of a variable length in specific sequences to produce many applications and personalised materials, including books, coupons and business cards
- [Learn more](#)

Fiery Color Profiler Suite

Integrated colour management that allows users to make, inspect, edit, and enhance ICC profiles. Users can also verify colour accuracy, match to colour standards, and align results across multiple printers:

- Enables easy creation of expert-level custom ICC printer profiles with Express Profiler or Printer Profiler
- Calibrates Fiery Driven™ print systems to G7 in order to gray balance the print system before profiling
- Produces fully compatible ICC profiles by connecting the source and destination with the Device Link module
- Evaluate proofs and prints against an industry standard with Fiery Verify
- Enables fine-tuning of profiles with Profile Editor, while Profile Inspector helps visualise a printer's color capabilities, and identify possible errors
- Printer Match module aligns up to five Fiery Driven printers to achieve colour consistency across a print facility
- [Learn more](#)

Fiery Compose subscription*

Provides an advanced preview and editing environment to simplify media assignments, tab printing, chapterisation and document finishing:

- Creates tabs and specifies mixed media from a single, integrated visual interface
- Simplifies document setup and navigation in large jobs with a page view panel
- Offers quick and easy setup of page ranges within documents, including chapter definition
- Provides simple merging of PDF pages with drag-and-drop PDF insertion
- [Learn more](#)

ES-3000 spectrophotometer

Handheld measuring device used for print-engine calibration, creating spot colors and ICC profiles:

- Accurately measures colour patches for calibration, ensuring consistent, repeatable colour
- Produces accurate spot colours from a physical swatch and includes them in the server's spot colour library for fast and easy printing
- Measures exact white points
- [Learn more](#)

*Bundle includes a 5-year subscription
