

Fiery® BP-PE11

FS600

SHARP

Boost productivity with high performance and automation

Combine the Fiery BP-PE11 Server with your Sharp Color Pro Series BP-90C70/BP90C80 printer for heightened productivity and superior output quality

Elevated performance

- Experience enhanced production process with the innovative Fiery® FS600 software, which harnesses a blend of management, automation, and processing power features, unleashing your printer's potential.
- Empower your printing operations with the efficient management of Fiery Command WorkStation®, enabling output optimization, reduced error rates, and streamlined overall efficiency.

Optimize performance with intelligent and user-friendly solutions

- Achieve precise brand color reproduction from Microsoft Office applications using the Fiery TrueBrand™ tool, which effortlessly maps RGB values to named spot colors like PANTONE colors.
- Streamline job submission and reduce errors by utilizing server presets. Alternatively, enhance your workflow's efficiency with the optional Fiery Automation Package, reducing job touchpoints.
- Unleash personalized printing capabilities with Fiery FreeForm™ Create. Quickly add variable elements such as text, images, or barcodes to existing files with just a few clicks.
- Optimize print quality and processing time with the optional Fiery JobExpert and PDF Processing Kit, automatically setting optimal job properties. Additionally, benefit from native PDF processing using the Adobe PDF Print Engine interpreter.
