Amazing, precise, consistent colour. High-quality images.

Fiery servers provide state-of-the-art imaging technology, combined with expert colour management tools, to deliver high-quality images with the accurate, consistent colour customers want.

"Our experience with the Fiery server has been great! The colour quality right out of the box is the best there is it's really easy to use."

LEWIS EIGEN, PRESIDENT, SOCIAL & HEALTH SERVICES, LTD.

Smooth low-resolution images and gradation transitions in line art.

Preserve fine detail in text and vector elements to improve edge quality.

Enhance individual images in a job, without opening and editing the file in the native application.

Sharpen images and enhance colours for better-looking output.

Print perfect PDFs

Supports and guarantees full compliance with PDF/X-4 standard to reproduce transparent page elements, overprints and multiple colour spaces preserving the designer's intent.

IMAGING TECHNOLOGY

Automate trapping and overprinting

Automatically apply trapping to avoid white lines or halo effects.

Deliver accurate colour by producing the correct overprint elements at all times.

Ensure correct output with prepress tools

Visually check and adjust the final raster output before printing to save time and reduce waste.

Preflight fonts, spot colours, low-resolution images, hairlines below threshold, overprints and PostScript® errors.

Quickly and easily identify potential printing issues such as mixedsource colours and missing spot colours with job diagnostic reports.

ADVANCED FIERY COLOUR MANAGEMENT WORKFLOW

Set up desired media

Select media in the Paper Catalogue to define the right calibration settings and output profile.

Bring the print system to a known state.

Provide consistent results over time.

Apply calibration to raster data so you don't need to reprocess the job after recalibration.

Profile for

that defines the

accurate colour

Create an ICC profile

gamut of your print

system to ensure the

best possible output.

Match colour across

multiple presses and

workflow that precisely

on different stocks.

Create a colour

matches industry

colour references.

FIERY COLOUR MANAGEMENT

"Fiery technology helps us deliver the quality and consistency of

DENNIS LOW, PRESIDENT,

colour output that we demand."

POINTONE GRAPHICS, INC

Easily verify colours

Measure the colour bar to compare colour accuracy to industry references.

Print colour bars at specified intervals to track colour quality

Reproduce brand colours

Deliver the most accurate spot colour output with ease.

Edit spot colours to match customer's preference.

Create and share custom spot colour libraries including the latest PANTONE® approved libraries.

FIERY COLOUR EXCELLENCE
