# EX C60/C70 Print Server Powered by Fiery

Innovative, scalable, integrated.

Achieve unparalleled image and colour quality, outstanding productivity and seamless integration, allowing you to win new business and get your customers noticed.

## Boost your production and profits.

The powerful Fiery® digital platform enables you to handle heavy workloads and provide faster turnaround times. It enables you to produce short-run jobs profitably by automating manual tasks and increases your workflow flexibility by supporting industry-leading variable data printing (VDP) formats.

## Speed up makeready, reduce waste.

Fiery® Impose simplifies layout work with intuitive, visual document imposition. Speed up production with imposition templates to automate common layouts. The Fiery® JobMaster option is the advanced PDF makeready solution that integrates with Fiery® Impose to offer all job preparation functions in one interface – including unique capabilities such as multi-bank and bleed-edge tab setup, page merging, media assignment, finishing, page numbering, plus hardcopy scanning and cleanup.

## Get outstanding colour every time.

The Fiery® server helps you produce precise, exact, high quality colour out of the box. Fiery® Spot-On™ and the optional Fiery® Color Profiler Suite deliver enhanced control of colour quality. The optional Fiery® Graphic Arts Package, Premium Edition provides the most advanced tools for previewing output and troubleshooting digital print jobs before printing, minimizing waste and rework.

## Deliver finished jobs simply and quickly.

Fiery® technology allows you to centralize job management by connecting to all Fiery® servers on the network. The intuitive interface of Fiery® Command WorkStation® print job management makes complex jobs simple to set up and print, regardless of the operator's experience. The flexible software runs on a PC or Mac and adapts to any environment.

## Print perfect PDFs.

By supporting the Adobe® PDF Print Engine 3.0, Fiery® servers also offer a native end-to-end PDF workflow. This improves consistency and flexibility of prints from design to output in both digital and offset print environments and also ensures correct representation of colour spaces and transparencies.

## Automate with seamless integration.

Fiery® JDF technology connects EFI MIS solutions and Fiery®-enabled solutions, so you can move job information through your system faster and more efficiently.

Fiery® servers and Fiery® Command WorkStation® enables integration with FreeFlow® Digital Workflow Collection and FreeFlow® Core for workflow automation.

## Print Server Software

- Operating System
  - Microsoft® Windows® 7 Professional for Embedded Systems x64
- Fiery® Software
  - Fiery® FS150 Pro

## Fiery® Color Technology

- Fiery® Color Management Technology
- Job-based Calibration Integration
- Fiery® Spot-On finds the best match of PANTONE®, PANTONE® +V2 Series, RGB, CMYK, L*a*b* and Spot Colors
- PANTONE® Approved for the best possible PANTONE® color matching
- Composite overprint of Spot and CMYK Colors for accurate representation of the designer's intent
- Image Enhance Visual Editor provides real-time image editing
- Colour Modes for professional proofing and enhanced production colour requirements
- Maximum print density of the printer to optimize its colour gamut and obtain more vivid and vibrant colours

## Productivity and Workflow

- Spool-RIP-Print simultaneously offers the fastest output delivery to the print engine
- Integration with FreeFlow® Digital Workflow Collection and FreeFlow® Core
- Integration with Xerox® Standard Accounting
- Support of Adobe PDF Print Engine 3.0, offering Native end-to-end PDF-based workflows
- Native Fiery® JDF integrates creative, production and management information solutions, making digital production faster and more efficient

- Fiery® Command WorkStation 5 offers intuitive and productive workflow control from local or remote Mac and PC clients
- Advanced Job Management includes production features such as Sequential Print, Proof Print, Schedule Print, Suspend on Mismatch, Job Reorder, Force Print and Quick Doc Merge
- Fiery® Hot Folders for PC and Mac includes Microsoft Office filters, automatic merge of JPEG files to produce photo booklets and contact sheets*
- Virtual Printers automates job preparation
- Support of PDF XObjects on a per-job basis to maximize job processing speeds
- Fiery® Go to manage your printer from a mobile device

## Document Preparation

- Booklet Maker allows flawless booklet imposition from the Fiery® driver
- Fiery® Impose offers visual document imposition
- Fiery® Compose (option) offers visual document preparation
- Fiery® JobMaster (option) offers fully visual tab insertion and design, page numbering, scanning and powerful late-stage editing features

## Variable Data Printing

- VDP Record-level finishing allows you to apply finishing to a VDP job at a record level
- Visual VDP Imposition capabilities include Raster Preview, Sample Proof Printing and Control Strip
- Define Record Length allows PS and PDF files to be processed as a VDP job of fixed record length
- Supports the following formats:
  - VI Compose with Specialty Imaging

- PPML 3.0
- Fiery® FreeForm™
- Creo™ VPS
- PDF/VT and PDF/VT-2

## Security Features

- IP Filtering for IPv4/IPv6
- Secure Erase
- Backup and Restore
- Fiery® System Restore Recovers the Fiery® Server in Minutes
- Windows 7 FES Delivers More Secure Operation
- User Authentication via LDAP
- IP Sec Support
- SSL/TLS Support
- Certificate Management
- Encryption of Critical Information
- IPv6 Support

## Options

- Fiery® Integrated Workstation: Furniture Stand, GUI Kit (Display, Keyboard and Mouse)
- Fiery® Color Profiler Suite including ES-2000 Spectrophotmeter
- Fiery® Graphic Arts Package, Premium Edition
- Fiery® Compose
- Fiery® JobMaster
- Furniture Stand:
  - Height: 1537 mm
  - Width: 815 mm
  - Depth: 1016 mm
  - Weight: 28.1 kg

*Only available with Fiery® Graphic Arts Package, Premium Edition

## Print Server [EX C60/C70 Print Server Powered by Fiery]

| Item | Description |
|---|---|
| Type | External |
| CPU | Intel® Core™ i5-2400 Processor (3.1 GHz) |
| Storage Device | Hard disk: 1 TB, DVD multi drive |
